#### **Collpas Inn - Chuncho Clay Lick - Puerto Maldonado**

Chuncho is the best for Parrots & Macaws! On most clear mornings of the year, dozens of large macaws and hundreds of parrots congregate on this large river bank in a raucous and colorful spectacle that inspired a National Geographic cover story. Discretely located fifty meters from the cliff, we will observe Green-winged, Scarlet, and Blue-and-gold Macaws and several species of smaller parrots descend to ingest clay.

Outings are at dawn when the lick is most active. This boat ride will give big chance to see Capibaras, turtles and river birds. It is time to say goodbye, as the expedition comes to an end.
